hands of an imprudent or inconsiderate person. Great mischief may very easily be done by rapid dilatation on any method, a proceeding, the exercise of which has been sufficiently reprobated. The semi-elastic constituents of a stricture must be gradually dilated if an efficient result is to be attained.

Inflammation of the urethra and bladder, which in patients labouring under chronic disease of the kidneys may readily extend to these organs and be followed by fatal consequences, has been not unfrequently induced by neglecting this rule. Moreover, rupture of the urethra may be produced by rash treatment, an occasional consequence of which, even when the lesion is only slight in extent or degree, is the occurrence of phlebitis and purulent infection, with collections of pus in different parts of the body. Mr. Coulson, of St. Marys Hospital, has recently called the attention of the...
