*This ebook is wonderful. It typically does not expense too much. You wont really feel monotony at any time of your own time (that's what catalogs are for relating to should you request me).

Joshua Winters is a math teacher by day, bartender by night. He's the middle Winters brother, and tends to be a bit of a wild child. Ten years ago he met the girl of his dreams in algebra class, his junior year of high school. He tries all of his sexy charm on this unapproachable girl, but then she mysteriously leaves Wilmington and he feels lost. Now seeing her standing in the bar where he works, he realizes this may be his second chance. Kenzie Waters grew up a military brat and traveled everywhere while she was growing up. Since she relocates about every six months to a year she vowed to not make friends and just keep to herself. When she met Joshua Winters in high school, he managed to crack her tough exterior. Still guarded, she kept her distance from the cutest boy in high school. When her father is called for another tour of duty in Afghanistan, her mom moves them back to Arizona to be with family. Just two months after living back in Arizona, her father comes home injured. The next ten years, she endures so much, and yet Joshua always stayed in the forefront of her mind. Now, Kenzie has made her way back to Wilmington, NC, and hopefully into the arms of the one man who had her heart all along. Sometimes we fall in love with someone even before we know it.
